The Arab Conference on Information, Communication, and Space Technology (ARAB ICST 2026), now in its eighth edition, stands as a leading Arab event held under the umbrella of the Federation of Arab Engineers, through its Information, Communication, and Space Technology Committee, which oversees the organization of the conference editions across Arab countries.

This year's edition will be hosted in the Arab Republic of Egypt, where the Egyptian Engineers Syndicate, in collaboration with the Military Technical College, will undertake the full organization and supervision of the conference.Egypt's hosting of this prestigious Arab event reflects an Arab cooperative spirit that enhances engineering and scientific integration among Arab nations.

The conference aims to strengthen Arab collaboration in the fields of Artificial Intelligence, Information and Communication Technology, and Space Engineering, by bringing together leaders, experts, researchers, and engineers on one platform to exchange knowledge, showcase cutting-edge innovations, and explore partnership opportunities toward a sustainable digital Arab future.

Conference Tracks

As part of its mission to promote scientific excellence and technological advancement in the Arab world, the 8th Arab ICST Conference 2026 invites distinguished researchers, academics, engineers, scientists, and industry experts to submit their original papers that address recent research findings, emerging technologies, and innovative engineering applications. Submissionsare invited in, but not limited to, the following tracks:

1 - ICT for Infrastructure Management
2 - Digital Transformation Technologies
3 - Artificial Intelligence in Engineering Applications
4 - Internet of Things (IoT) for Smart Communities
5 - Cybersecurity
6 - Cloud Computing and Big Data Analytics
7 - Augmented Reality Systems and Applications
8 - Machine Learning for Signal Processing and Computer Vision
9 - Satellite Communications
10 - Space Engineering

Exhibition Announcement

An Industry and Technology Exhibition will be held alongside the conference, providing a professional platform for companies, organizations, startups, and technology providers to showcase their innovative products, engineering solutions, and advanced technologies in the fields of AI, ICT, digital transformation, and space applications.
The exhibition aims to strengthen the link between industry and research, support technology transfer, and promote investment and collaboration opportunities across the Arab region.
