## Call for Workshops

# Egypt

The Arab Conference on Information, Communication, and Space Technology (ARAB ICST 2026), now in its eighth edition, is one of the foremost scientific and engineering events held under the umbrella of the Federation of Arab Engineers.

After seven successful editions hosted by the Kingdom of Bahrain, the conference will convene for the first time in the Arab Republic of Egypt.

This year's edition is organized and supervised by the Egyptian Engineers Syndicate, in collaboration with the Military Technical College, marking a significant step toward strengthening regional scientific cooperation.

The decision to host the conference in Egypt reflects a genuine Arab spirit of partnership and contributes to deepening engineering and scientific integration across the Arab world.

ARAB ICST 2026 aims to advance Arab collaboration in the fields of Artificial Intelligence, Information and Communication Technology, and Space Engineering by bringing together leaders, experts, researchers, and engineers to exchange knowledge, showcase cutting-edge innovation, and explore new opportunities for joint progress toward a sustainable and digitally empowered Arab future.

## Call for Workshops

The Organizing Committee invites submissions for technical and industrial workshops as part of the conference program.

Workshops should provide practical, hands-on training or applied technical content aligned with the conference's scientific themes.

The workshop schedule will be announced within the conference program during the event days.

## Workshop Themes & Tracks

Workshops should fall under one or more of the following themes:

### Theme 1 – Engineering of ICT & Digital Systems

- Infrastructure Management Engineering
- Digital Transformation Engineering
- Smart Communities & IoT Systems Engineering
- Cybersecurity Engineering
- Cloud Computing & Big Data Engineering

### Theme 2 – Engineering of Artificial Intelligence & Advanced Computing

- AI Engineering in Industrial and Applied Systems
- Machine Learning Engineering for Signal Processing
- Computer Vision Engineering
- Augmented Reality Systems Engineering

### Theme 3 – Engineering of Satellite Communication Systems

- Satellite Communication Systems Engineering
- Link Budget & Propagation Engineering
- Ground Segment & Earth Station Engineering
- Satellite Network Engineering
- Emerging Satellite Technologies

### Theme 4 – Engineering of Space Systems & Missions

- Spacecraft Systems Engineering
- Space Mission Design & Operations Engineering
- Orbital Mechanics & Attitude Control Engineering
- Propulsion Engineering for Space Applications
- CubeSat & Small Satellite Engineering

# ARAB ICST CONFERENCE 2026 (AICST)

Egypt - 8th Edition | 14 – 16 April 2026 (Call for Workshops)

## Strategic Partners

## Technical Sponsors

## The organizers

## Important Dates

- Submission Deadline: 15 January 2026
- Notification of Acceptance: 31 January 2026
- Final Description for Publication: 10 February 2026
- Workshop Date: To be announced
- Conference Dates: 14–16 April 2026

## Submission Requirements

### Workshop proposal should include:

- Workshop title
- Presenter's name, affiliation, and email
- Abstract (150–250 words)
- Objectives and expected outcomes
- Target audience
- Detailed outline
- Duration
- Required software or equipment
- Short biography

Proposals should be submitted in PDF format to: mail : [WORKSHOPS\\_ICST@eea.org.eg](mailto:WORKSHOPS_ICST@eea.org.eg)

A limited number of workshops will be accepted based on clarity, relevance, technical quality, and practical value.

## Benefits for Workshop Presenters

- Official certificate
- Listing in the conference program and website
- Complimentary registration (for selected workshops)
- Promotion through official channels
- Networking opportunities with experts and professionals
